

HAVE YOU SEEN THEM

Our Cement Building Blocks?
Our Cement Fence Posts?
Our Sidewalk Paving?

They are pleasing to the eye and pleasing to the pocket. A properly constructed cement block building will give far greater satisfaction than brick, be warmer in winter and cooler in summer, dry at all seasons, and cost about half as much. Now doesn't that look good? All that we ask is that you investigate. Brick is not durable, has to be painted almost as often as wood, and so far as comfort goes no better than wood.

Don't stay in the rut, ask any up-to-date Architect, or let us make your plans; it will cost you nothing.

We have secured the services of an expert paver from Louisville and guarantee our pavements. We use concrete curbs that won't scale off; pavements that won't settle and break; and it costs you no more.

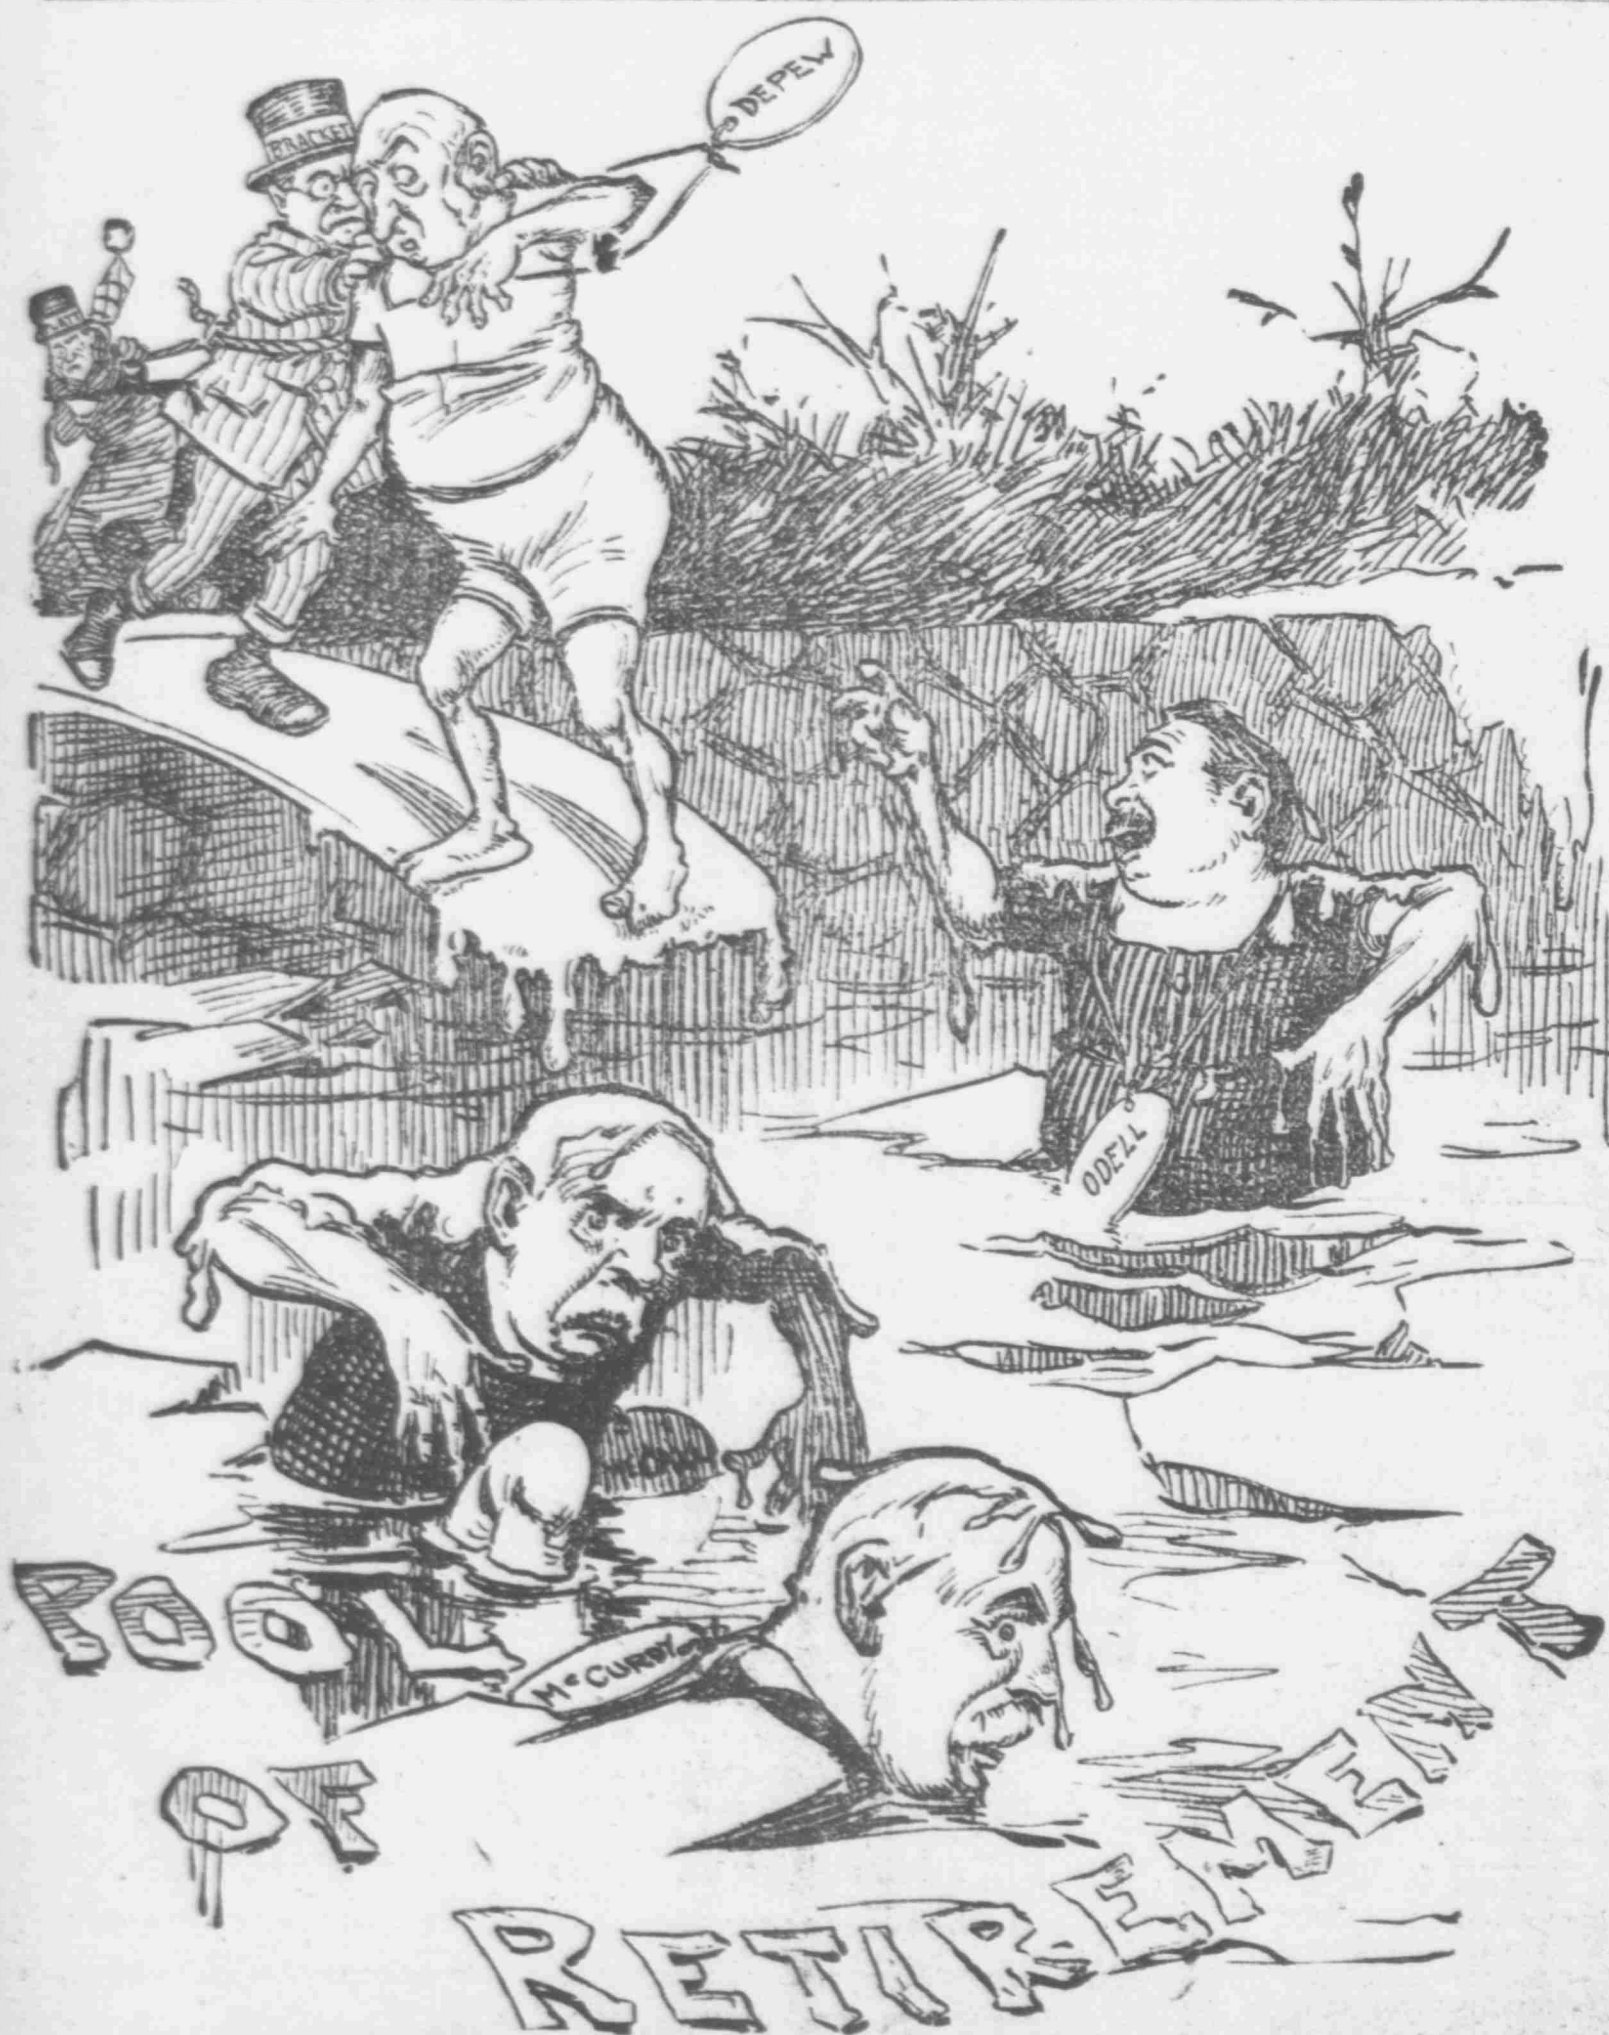

Do your Fence Posts need renewing? Let us figure with you. Our posts are made to meet any requirement, be the fence wire or pickets, and they last forever. They cost no more than wood.

CALL US UP AT 399

Or drop us a postal, and we shall be pleased to give you estimates.

You May Pay for Paving on the Installment Plan.

Pensacola Cement Stone Co.

COUNTY COMMISSIONERS DECIDE UPON BRIDGE

Accepted the Bid of the Southern Bridge Company Provided that Baldwin County Commissioners Would Agree to the Terms.

GULF MACHINE WORKS ALSO MADE BID UPON BRIDGE OVER THE PERDIDO RIVER, BUT THE PRICE WAS OVER \$1,800 IN EXCESS OF OTHER BID.

The matter of a steel bridge to span Perdido river between Escambia county, Fla., and Baldwin county, Ala., was settled last night, so far as Escambia county is concerned, the bid of the Southern Bridge Company of Birmingham being accepted, with the provision that a few changes may be inserted by the engineer employed by the county.

When the meeting was called to order there were present Chairman Avery, Commissioners Andrews, Stewart, Sennott and Wiggins. Commissioner Hollman of Baldwin county was also present and occupied a seat among the commissioners.

The first matter to come to the attention of the board was the permit granted to J. L. Long to sell liquors in the northern suburbs of the county. This permit had been granted, but no license issued, and upon the protest of those residing near, it was rescinded.

The Perdido Bridge.
The awarding of a contract for the bridge over the Perdido river was then discussed, the agreement being that each county shall pay one-half of the cost of construction.

Several meetings have already been held, some of which have been attended by the Baldwin county commissioners. Last night, however, definite action was decided upon and the plans and specifications of two firms were considered. They were the Gulf Machine Works, of this city, and the Southern Bridge Company, of Birmingham. The commissioners entered into a lengthy discussion as to the merits of the two bridges, there being a difference of opinion among the members.

Captain Tuttle, of Fort Barrancas, who had been engaged by the board to look over the plans, recommended the acceptance of the bid of the Southern Bridge Company, which the company agreed to construct for \$3,657, with steel approaches. The bridge is to be 135 feet in length, and should the commissioners decide to have wood

approaches it will be constructed for \$3,577.

The Gulf Machine Works offered to build a double span bridge for the sum of \$5,443, with steel approaches.

The bid of the Southern Bridge Company was finally accepted, provided the Baldwin county commissioners agreed upon same, which Commissioner Hollman stated they would no doubt do.

The vote upon the acceptance of the bid was a tie, Commissioners Stewart and Wiggins voting aye and Commissioners Andrews and Sennott nay. Chairman Avery voted aye and settled the matter.

Another Bridge.
The board went upon record as being in favor of constructing a bridge across Escambia river, which divides Escambia and Santa Rosa county, provided the latter county would bear a portion of the expense.

VAMPIRE BATS.

They Are Fond of Veal Blood and Cause Death of Many Calves.

Vampire bats are found by thousands in Veragas and Ciriqui. They are particularly fond of veal blood, but older stock and horses, colts, mules and burros all suffer. I did not catch a vampire at his work, though I saw hundreds of them, but the cattlemen all tell the same story. The vampire settles somewhere on the back of the beast in the pasture at night and then, while slowly fanning its wings to and fro, cuts a circular piece of skin one-quarter of an inch in diameter. Through this hole he sucks the blood till satisfied.

One wound would be of little consequence, nor would the loss of blood do much damage were that all, but half a dozen vampires may feast on one poor calf or on the back of a saddle horse in one night. The calf is badly weakened by the loss of blood, while a saddle horse so served is worthless until the wounds are entirely healed. But that is not the worst result of the bite. The region swarms with a pestiferous fly that soon after daylight finds the wound and lays eggs in it. Unless the wound is properly cleaned and dressed with a waxy salve within forty-eight hours after the vampire's attack the animal will be destroyed by the progeny of the fly. The percentage of calves thus killed is large in spite of the watchfulness of the cow herders.—Panama Correspondent.

THE STOLEN HORSE.

An Old Proverb With a New Application.

The woods are full of "so-called" remedies for Baldness.

You may call anything in creation a remedy, but to use them is like locking the stable after the horse is stolen. Baldness and Dandruff are caused by a germ—if you don't kill the germ the germ will kill the hair.

Scientists have labored with the problem of a preventative for Baldness for many years.

Newbro's Herpicide is the product of a modern idea and will cure Dandruff and prevent Baldness because germs cannot exist when you apply Herpicide.

Herpicide is a valuable hair dressing and scalp disinfectant as well as a cure for Dandruff.

For sale by W. A. D'Alemberte, druggist and apothecary, 121 South Palafox street, or send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
